MANUAL OF THE INTERNATIONAL STATISTICAL CLASSIFICATION OF DISEASES, INJURIES AND CAUSES OF DEATH

Summary. Attention is drawn to the forthcoming publication of a revised version of this Manual.

1. In R.H.B. (49) 53/H.M.C. (49) 41/B.G. (49) 45 the attention of Boards and Committees was drawn to the arrangements made by H.M. Stationery Office to obtain copies of the International Statistical Classification. This document has now been revised, under the title of the "Manual of the International Statistical Classification of Diseases, Injuries and Causes of Death", and the first volume is expected to be published in August.

2. Copies may be obtained from H.M. Stationery Office, price 35s. for the two volumes. The suggestion made in 1949 that one or more copies as necessary should be available for use by each hospital still holds good.
