

NATIONAL HEALTH SERVICE

LEAFLET "MATERNITY CARE"

The leaflet "Maternity Care", which has recently been further revised, describes the various services available to expectant and nursing mothers under the National Health Service.

1. The main distribution of the leaflet will be undertaken as before by local offices of Ministry of Pensions and National Insurance but it is considered that a few copies should continue to be available in hospital maternity clinics to meet occasional demands.
2. Arrangements will therefore be made for a small supply of the revised leaflet to be sent to each Regional Hospital Board for this purpose.

MINISTRY OF HEALTH,
SAVILE ROW,
LONDON, W.1.

20th November, 1957.
